1 Introduction

Before you start writing your paper for the ICYS 2015 conference, read the following instructions:

Your manuscript file should be in DOC format, and **should not exceed 2 pages and the final document size should not exceed 2 MB.**

2 Paper submission

The deadline of paper submission is **February 17th**. **Manuscripts sent via email are not accepted.**

3 Basic formatting instructions

3.1 Page layout

The page size must be standard **A4** (210 mm wide and 297 mm high). MS Word users should first declare so to the printer connected to their computer by clicking on printer options, paper size. Then, under MS Word, click on file, page layout, and size. Units should be set in centimeters (one inch equals 2.54 cm). To do so under MS Word, click on "Tools", then "Options", then "General.

Do not insert page numbers.

All four margins (left, right, top and bottom) must be set to 1.5 cm. To do so under MS Word, click on file, page layout, margins.

The text should be written in two columns, 1 cm apart from each other, and 8.5 cm wide. Exceptions may occur when writing long equations or inserting wide graphs or pictures.

The whole text should be typed using the Times New Roman 11 font size, and headings should be typed using 14 font size.

3.2 Paragraph formatting

The body of the paper (style **Normal** in MS Word) should be aligned justified and not indented. **Times New Roman 11 font size** should be used. A vertical spacing of **4 pt** should be inserted between paragraphs.

All tables, figures, and equations should be centered in the column (or page, if the size of the table makes it necessary), followed by a caption. They should be separated from the text by a 12 pt spacing.

The printed ICYS proceedings will be in color.
